Need your own IT doctor?

Crystal Tec understands how your medical systems interrelate and can provide tailored IT solutions and services efficiently, so that medical and health providers can maintain a **healthy IT system** that strengthens the process of your practice.

Our mission is to assist your IT solutions in smoothing out their integrations, resulting in fewer project overruns, reduced costs and stable planning.

Crystal Tec's project experience and latest innovative technology allows us to **foresee potential problems** before they become issues impacting upon the project.

Our team of highly trained IT professionals has well established relationships with many vendors, allowing us to quickly sooth out technical and operational issues with any vendors to make sure you can get **back to caring for your patients as soon as possible.**

After your Project has finished, we offer managed IT services to keep your organisation running smoothly and efficiently. Our business operates **24/7**, giving our clients a service which meets the needs of a **24/7** medical and health industry

Crystal Tec offers an IT project management service for new implementations or redesigning your infrastructure, assisting your organisation in the defining, planning, implementing and testing stages of your organisation's systems.

We support all of the following:

- 24/7 Managed IT service Provider
- Medical Software Management and Upgrades
- Data and Cyber Security
- Procurement and Installation
- Technical and RACGP Compliance Support
- Secure Messaging Services
- Backup and Data Protection
- Competitive Pricing
